

Dr. Paul E. Burk & Dr. Sheldon L. Davis

EAR, NOSE & THROAT

What happens when you join together passion, dedication, and a combined experience of more than 63 years? You get the newly formed practice of Dr. Paul E. Burk and Dr. Sheldon L. Davis with a mission to provide state of the art care for patients seeking proper diagnosis and relief from common ear, nose, and throat symptoms seen in the St. Louis area.

With the latest techniques in Balloon Sinuplasty™, Dr. Paul Burk has changed the lives of many patients who have exhausted all nonsurgical methods to open their nasal passages, and has completed thousands of this particular minimally invasive surgery. Dr. Burk says, "I'm amazed at how this simple procedure has changed the lives of long-term sinus sufferers." Dr. Burk is board-certified in otorhinolaryngology/facial plastic surgery by the American Osteopathic Colleges of Ophthalmology and Otolaryngology-Head and Neck Surgery and is also a fellow of the college.

After more than 30 years of experience, Dr. Sheldon Davis is uniquely positioned to diagnose and treat a full spectrum of ear, nose, and throat symptoms, from voice problems, reflux, allergic and sinus conditions to hearing loss. With an experienced audiology staff, they can provide patients with state of the art amplification and assistive listening devices to improve their quality of life. Dr. Davis, a Fellow of the American College of Surgeons, is certified in otolaryngology by the American Board of Otolaryngology-Head and Neck Surgeons.

Both Dr. Burk and Dr. Davis treat diseases of the sinuses, allergies, ear problems, and throat issues. Between the two of them, they have successfully changed the lives of countless people for the better. For example, "If a patient has ENT medical problems, all areas of his or her life will be affected," says Dr. Davis. Their practice strives to improve the level of health for their family of patients which, in turn, improves their lifestyle.

did you know?

Weather patterns in the St. Louis Metropolitan area can change daily, which, along with the Illinois, Missouri, and Mississippi Rivers merging here, makes this region have one of the highest incidences of sinusitis and general ENT problems in the country.
